16009 Power Rocker Switch:

Description: switch, polarity reversing, momentary, high current, shunting.

Materials: copper, steel, brass, synthetic rubber, and thermoplastics.

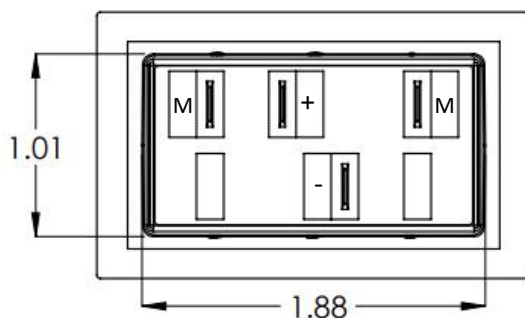

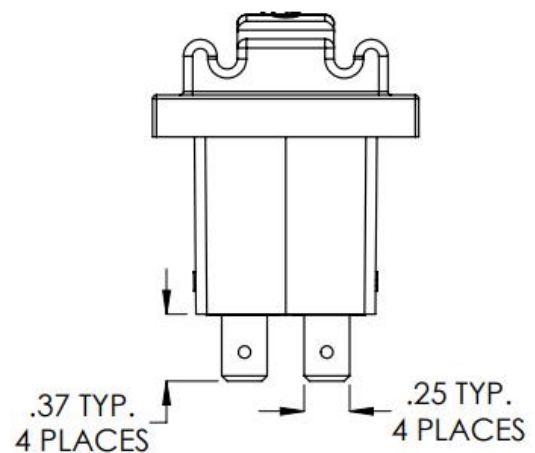

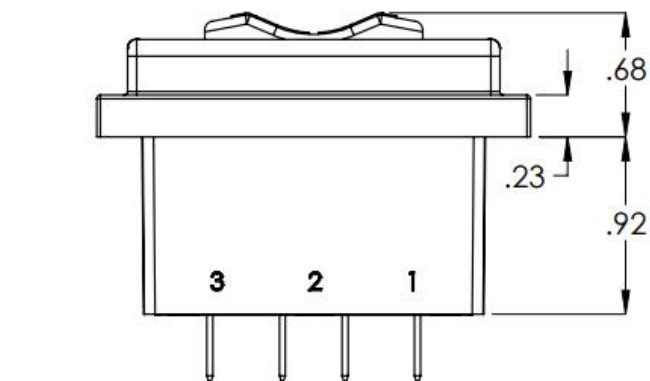

Electrical:

Voltage: 12VDC Systems.
 Continuous rating: 30 Amps.
 Duty Cycle rating (10%): 70 Amps.
 Dielectric: 1,000 rms.
 Contact resistance (Initial): 5 milliohms max.
 Insulation Resistance: 1,000 Megaohms.
 Electrical Life: 25,000 operations.

Mechanical:

Water Resistant Design.
 Mechanical Life: > 25,000 operations.

Replaces original 14080 rocker switch
